# Who We Are

The Jordan Regulatory Sandbox for Fintech Innovations (JO REG BOX) is a unit owned and operated by the Central Bank of Jordan, which aims to provide fintech innovators with a real experimental environment that is safe, controlled, monitored, and equipped with a methodology based on risk management, allowing them to test fintech products and services within clear parameters and with the highest degree of transparency.

# Who We Are

The setup of JO REG BOX comes as a response to His Majesty's King Abdullah II Ibn Al Hussein 2022 Economic Modernization Vision, which aims to make the Kingdom's economy an enabling, inclusive, sustainable, and resilient one, bringing empowering opportunities to people, entrepreneurs, and enterprises alike. This vision specifically identified financial services, and fintech in particular, as one of its key enablers for the Jordan of the future.

# What We Do

Promote innovation and leadership in the financial and banking sector in a way that contributes to accelerating the process of digital transformation.

# What We Do

Provide a safe and controlled pilot environment that enables business leaders and innovators to test their fintech solutions with real customers, accelerating their access to markets.

# What We Do

Increase the efficiency and effectiveness of digital financial products and services in a way that improves the levels of supply and demand, adapts to the needs of financial consumers, and achieves sustainable digital financial inclusion.

# What We Do

Facilitate innovations within fintech start-ups in a way that contributes to attracting and expanding the base of local and foreign investments in the Kingdom.

# What We Do

Promote financial stability within a legislative environment that harmonizes innovation and maintains the integrity of the financial sector.

# What We Do

Provide mechanisms to deal with modern technological applications and the challenges and risks associated with their use.

# Our Audience

**Financial companies and institutions** licensed  
by the Central Bank of Jordan

# Our Audience

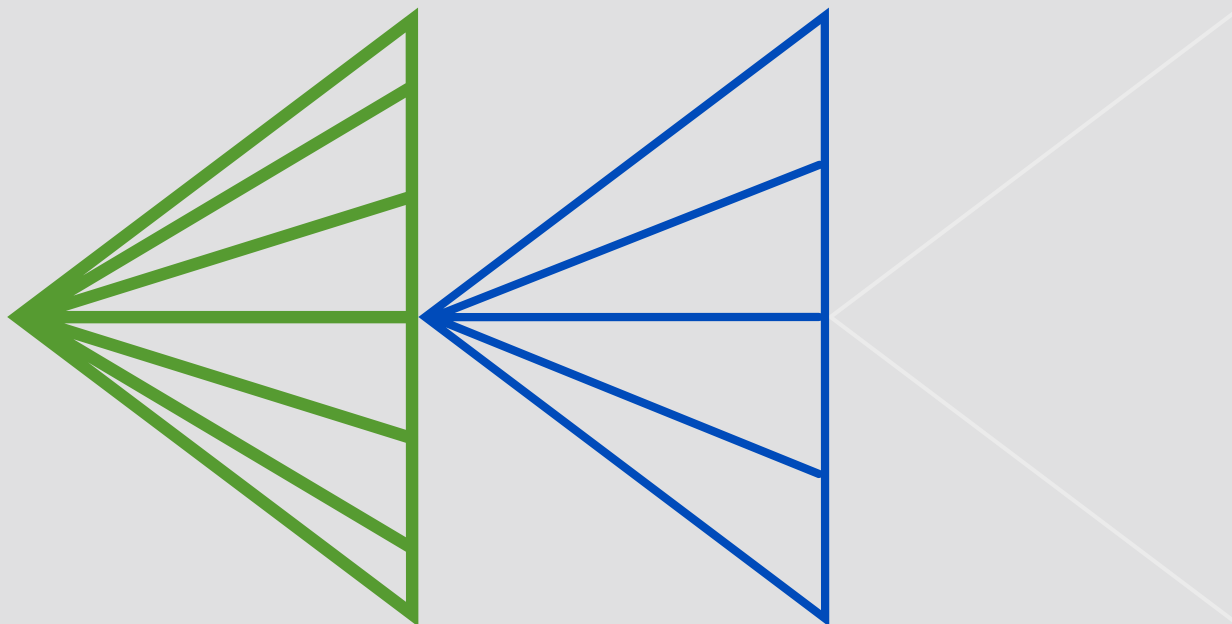

## Start-ups and Entrepreneurs

Anyone with an innovative fintech product or service wanting to test their technology inside or outside the Kingdom
